

Dear contributors and prayers about the Scripture use project that Felix is engaged in,

Here's an email Felix wrote yesterday, translated into English.

His subject line was "Gaining ground". Keep in mind that things we take for granted don't yet exist there. There's never yet been a Bible study group in Mazatec, but that's our vision -- people studying God's Word personally and in groups in a way they can understand it and shape their lives by it.

You keep praying along those lines too, please, along the lines of Isaiah 55.10&11.

Terry

.....

Hi Terry.

I believe we're gaining ground with what we're doing. Yesterday, Saturday the 26th of May, I worked with a group of women at church who don't know how to read. The work consisted in listening to and talking about the audio recording of Jonah. I was very pleased, because they really did learn. Faces and gestures tell a lot.

Next Saturday I want to do the same thing with another group.

Regarding those who are learning to read and write, there are at least four who are doing very well and three more who are making progress.

We're gaining ground for the kingdom. I'll write more in the monthly report. I'm writing you a little today because I'm excited.

Felix
