

Hi prayer partners,

Last week new student outreach at Ferris kicked off well with a back to school bbq. It was well attended & students even brought new people to hang out and hear about InterVarsity. There seems to be an eagerness to reach out to the campus and welcome new people. We are seeing new student leaders step up and take great initiative to help lead the chapter.

Tonight is the first all campus meeting and we really need your prayers. Last night I had to take Dave to the ER because he had an allergic reaction. As some of you know, Dave has a severe fish and nut allergy that is life threatening. While we aren't quite sure how the reaction occurred, this has meant that Dave isn't able to go to campus today & his plans are limited for the rest of the week to prevent another reaction from happening. This has shot his plans to speak at their first meeting and to help lead students in the outreach tables they had planned to do today.

Dave has been coordinating with students to help take over for what he'll be unable to do today. Please pray for Josh, a student leader who will give Dave's talk tonight on following Jesus on campus, for chapter members to be welcoming to the new students who will come to the meeting tonight. Please pray that all the little pieces that need to come together to make a great first meeting will happen by tonight. Please pray for Dave's health & his recovery for the rest of the week.

Thanks for your prayers for us & the campus!

Jessica & Dave
