

Who at Madison has helped you to love and follow Jesus more and to grow in your gifts? How did they do that?

Ms. Shelli - She encourages me to bring out God's gift in my dancing.

Ms. Kristi - Recommended me for plays, the Gracefuls, gave me the opportunity to teach at Madison Girls and Children's Church

Pastor Darrell - Helped me through a rough time and opened my eyes to God

Mr. LeMarr - Taught me about God at Youth Group

The Gracefuls - Were with me through everything, we danced with God, my personal counseling group

How many years have you been serving in Children's Church and what do you enjoy about helping those younger than you grow in their faith?

I have been serving for three years. What I enjoy about helping people younger than me is that they are so curious and ready to learn. They have beautiful minds that are ready to take on anything and ready to learn everything.

How do you think your time at Madison has equipped you to continue to grow in your faith and share it with others?

I think that teaching kids helps me really understand things about God. Teaching them teaches me. I think something that also helps me is that kids ask what I would ask and we figure it out together. Madison has people that really open your eyes to being a disciple.

What are you studying and what do you hope to do?

Well I'm not studying a specific thing but in high school I do plan on taking AP biology and Chemistry hopefully setting myself on the path to become a pediatrician
